

Distributed Systems
Monsoon 2025
International Institute of Information Technology, Hyderabad

Homework – 1
Due: August 8, 2025, 10 PM

Question 1.

Read about one paper out of the 8 papers posted in moodle resources for Homework 1.

- What is the system/theory/result about?
- What is the main result?
- What is the significance, what problem does it solve?
- How do you find it useful?
- What do you find interesting in the system/result?
- How can it be improved in some direction.

Question 2. Consider the TCP and the UDP protocols from the Internet suite. Answer the following questions.

- a) Do they use asynchronous or synchronous means of communication?
- b) Do they use blocking or non-blocking means of communication?
- c) Draw the pictures corresponding to their model of communication.
